# STAINLESS STEEL CARBOY SHELVES

This unique shelf system will adapt to not only the Inter Dyne Systems stainless steel pegboards but also existing acrylic, epoxy, stone or wood pegboards. This unit is manufactured from Type 304 stainless steel with a #4 finish and features a rail system on the underside for support. These shelves can also be supplied with an **Adjustable Graduated Cylinder Racking System** by adding the suffix "-DLX" to your desired model number. All shelving comes standard in 12" or 16" depths.

# CUSTOM STAINLESS STEEL COUNTERTOPS

Our stainless countertops and tables are customized to suit your needs and are constructed from a type 304 stainless steel material, polished to a #4 finish. Type 316 stainless steel is available upon request, for an additional charge.

Countertops and tables are constructed from 16-gauge thick material and sink bowls from 14-gauge material.

Table frames are made using a 2" square tubular construction with adjustable bullet-type feet.

We supply integral back and end splashes, where required, at a standard height of 4 inches, however these can be manufactured at taller and shorter heights upon request. Edging options are either a flat traditional or raised marine edge with a 1/4" drop down. The standard substrate, in the form of a galvanized hat channel configuration, provides added strength and is sprayed with a heavy sound deadening compound, unless otherwise noted. All exposed edges are returned back to provide a safety edge and are used as hat channel locations. Countertops can be made up to 16 feet in length without the need for a field joint. Countertop wall mounting brackets are available for tops not exceeding 30" in depth.

Sink bowls are welded in using a solder free application and are carefully finished and polished to a flawlessly integral appearance. Standard sink bowls have 3/4" radius at all corners and are supplied with a 3 1/2" center punched drain location. Each sink is furnished with a removable stainless steel crumb cup.

For further information on our countertops and table frames, please visit our website at [www.interdynesystems.com](http://www.interdynesystems.com) or contact one of our sales representatives listed below. All orders are provided with a three dimensional drawing for customer approval prior to manufacturing. Countertops are photographed prior to packaging and crated for safe transportation and delivery.

Quotes, pricing information and website passwords can be obtained by calling or emailing our office. To create your own quote, please access the Countertop Periodic Element from our website home page. Using your secret password, enter the information required to generate quote. This information may also be used when placing your order.

Please feel free to call or email for a quote as well. We pride ourselves on same day estimating.
