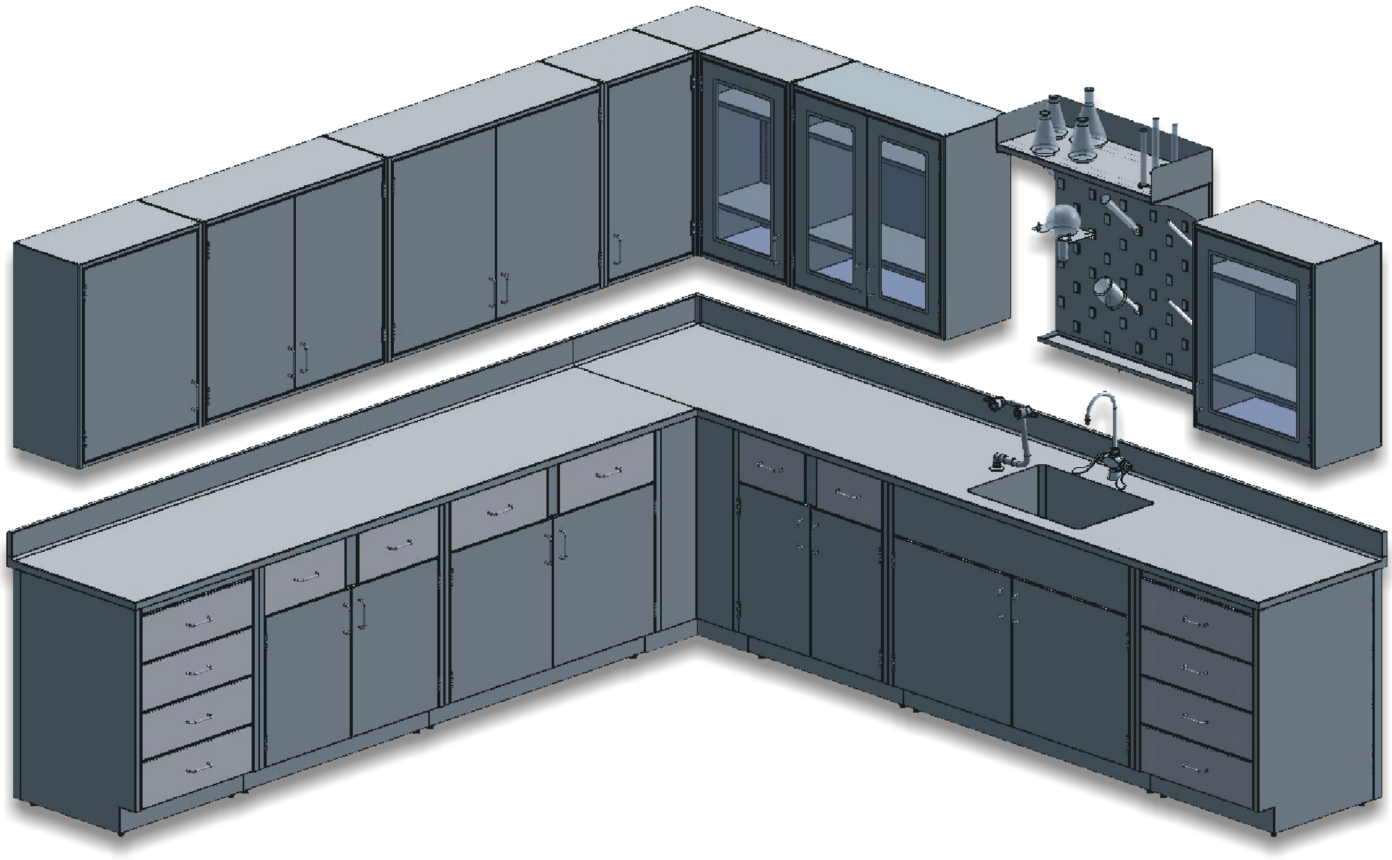
STAINLESS STEEL LABORATORY CASEWORK



Founded over 40 years ago, Inter Dyne Systems Inc. has become an innovator of stainless steel and acrylic laboratory furnishings. Fabricating stainless steel drying racks for laboratory glassware was only the beginning. Over time we gained a reputation as one of the leaders in the stainless steel laboratory accessories marketplace. We have built upon that foundation by continuing to offer high quality laboratory products with dependable service, consistent quality and on time delivery. Some of our offerings include but are not limited to stainless steel shelving and shelving components, stainless steel casework, countertops and tables, as well as innovative acrylic laboratory products such as dividers and splash guards.

MECHANICAL JOINT

The Victoria or "V" pegboard is constructed of lightweight stainless steel, offered in a range of sizes and variety of mounting options. Along the bottom is a drip trough that funnels water away to a drain, allowing equipment to dry quickly and remain sanitized. Each "V" style pegboard includes a drip trough, wall bracket, standard 6" white pegs and 3 ft. of clear plastic drain hose.

The "B" Baron is also made of lightweight stainless steel. It is offered in three sizes and a variety of mounting options. A drip deflector at the bottom diverts water away from walls and directs it to a sink or drain. Each "B" style pegboard includes a wall bracket and standard 6" white pegs.
